# ERV Upgrade

---

Our Contractor, Klebs Mechanical, will be replacing the Energy Recovery Ventilator located in the mechanical room.

## Project Timeline

Klebs will be accessing the mechanical room in your back yard during this timeline.

The second stage of this project will begin after 9/10/26 and will require access into your home. The old system controls will be removed and blank off plates will be installed. The new system runs automatically.

**\*\*Additional notices will be posted prior\*\***

Please contact our Projects Team for any questions.
